The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1-19 and 59 are provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over (elected) claims 18-34 of copending Application No. 10/855,723 (US 2005/0008885 A1). Although the conflicting claims are not identical, they are not patentably distinct from each other because the instant UV inhibitor encompasses that of said copending Application.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Again, applicant failed to submit terminal disclaimer.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-19 and 59 are rejected under 35 U.S.C. 103(a) as being unpatentable over Pruett et al (US 4,617,374), Pruett et al (US 5,459,224), Carman et al (US 6,001,952) or Weaver et al (US 6,787,589) in view of Trojan (US 5,898,059), and further in view of Fujimori et al (US 6,703,474).

Rejection is maintained for reason of record with following response.

Use of any combination of the known catalysts for polyesters would be a *prima facie* obviousness and applicant failed to show otherwise.

There is a clear motivation to use catalyst system of Trojan since Trojan teaches employing a catalyst system of zinc compound, phosphorus compound and antimony compound in obtaining copolyester **articles having a very smooth surface** in abstract and examples and cols. 4 and 5 contrary to applicant's assertion.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of
